BHARATIYA VIDYA BHAVANS ATMAKURI RAMA RAO SCHOOL • HYDERABAD, TELANGANA • 2020
X Standard (CBSE)| 90.1%

ACADEMIC PROJECTS

RAIN REMINDER
This Python project uses the OpenWeatherMap API to check weather forecasts for a specific location and sends SMS notifications via Twilio if rain is predicted for that area.
https://github.com/apk471/Rain-Reminder

TO-DO-LIST
A simple TODO list application built using Node.js, HTML, CSS, JavaScript, and MongoDB. The application allows users to manage tasks by adding, updating, deleting, and marking them as completed.
https://github.com/apk471/ToDoList-Complete

CERTIFICATIONS

- Computer Hardware Basics (Cisco Networking Academy)
- Operating System Basics (Cisco Networking Academy)
- Python Basic (HackerRank)
- IBM PY0101EN Certificate (Python 101 for Data Science)
- Java Basic (HackerRank)
- 5 star rated by HackerRank in Python and Java

CERTIFICATION OF PARTICIPATION

- Codex Cryptum – Association for Computer Machinery
- Data Alchemy – The AI_ML Club
- HackBattle – IEECS

HOBBIES

- Playing Badminton

STOCK NEWS NOTIFIER

This Python project utilizes stock and news APIs to fetch stock price information and relevant news articles. It monitors the stock prices and sends an SMS notification via Twilio if there's a significant increase or decrease in the stock price of a specified company.

https://github.com/apk471/Stock-News

PASSWORD MANAGER & GENERATOR

A password management application built with Python and Tkinter.
Password Generation: Creates strong, random passwords with a combination of letters, numbers, and symbols.
Password Storage: Securely stores passwords in a JSON file.

https://github.com/apk471/Password-Manager
